ISSUE ONE

Welcome to the Jungle.....

I recently had the pleasure of traveling to Panama with a group of travel agents from the tristate area. The consensus among us was unanimous... this is a new and emerging destination.

From the cosmopolitan Panama city to trekking up the river in dugout canoes to visit a Indian Village, we did it all. We visited the Panama Canal and watched cargo ships go through the canal. We ended our trip at the Bristol Buenaventura.

This hotel has it all. The food was better than any resort in the

Caribbean. The spacious rooms were both comfortable and well appointed. The full service spa was heavenly.

The resort is full activities including horseback riding, ATV's, tennis and water sports.

One of the highlights for me was the rescue zoo that the resort boasts. The kids club makes visit there and its truly a highlight for kids of all ages.

Although the resort has golf nearby, they are currently under construction building a course of their own. This is truly a special place

for a family vacation or it can also be a romantic wedding destination. The resort is run by a fabulous general manager

The local currency used in Panama is our US Dollar which makes it easy for shopping!

who has truly taught his staff the meaning of pampering, and accommodating your every need. I highly recommend traveling to Panama!
